Our Services

HW Management is a complete warehousing and logistics solution, specializing in public and contract warehousing, warehouse logistics management, and other value-added services.

- **Straight Space Leasing** - Our high-bay, 410,000 SF facility offers an unparalleled ability to accommodate straight space leasing opportunities of any size, both for storage and light assembly.
- **Palletized Storage** - We have deep experience in handling and storing a variety of palletized goods, ranging from stacked plastic bottles to ten-ton steel coils.
- **Small Package Racked Storage** - We maintain a flexible set of pallet, package, and flow-type racking designed to accommodate packages and parcels of any size.
- **Finished Office Space** - Our facility already includes a variety of finished office space for your needs, whether you're looking for a small receiving dock or a large luxury executive office.
- **Dunnage Services** - We are extremely experienced in handling fibrous and plastic dunnage at food-grade levels of cleanliness. Our dunnage services include sorting, repair, cleaning, and storage.
- **Kitting and Light Assembly** - Our staff has extensive experience in the break down of inbound product and the kitting or assembly of product to demanding customer specifications.
- **Logistics Management** - Our staff has a deep experience in coordinating and managing other warehouses, trucking, and logistics companies. Use HW Management as your one call for logistics solutions.

Plastic Pallet and Tray Washing System – Our in house machine is equipped with fifty-two spray heads. Each head dispenses 2.5 gallons per minute of 170° water at 65 psi.
